Memorandum

To: Mark Rice

From: Mark E. Nettleton & Erik J. VanderWeyden

Date: September 2, 2026

Subject: Establishing a Housing Commission

Summary:

A township has the express statutory authority to establish a housing commission. The basic outline for a township to establish a housing commission is as follows:

1. Prepare and adopt an Ordinance to create and maintain a housing commission;
2. Publish the Ordinance and wait the statutory fifteen day referendum period;
3. Once the Ordinance becomes effective, the Township Supervisor appoints five commissioners on a staggered term basis;
4. The Commission begins to hold organizational meetings.

Benefits of a Housing Commission:

A housing commission provides a township with a dedicated entity to actively address housing needs beyond adopting policy or changing zoning ordinances. A township can authorize a housing commission to acquire property, pursue grants and financing, partner with private or nonprofit developers, develop or rehabilitate housing, and potentially own and operate housing projects. It can also provide oversight for housing initiatives while allowing the township board to retain control over major financial and policy decisions.

Authority to Establish a Township Housing Commission:

The Housing Facilities Act (MCL 125.651, et. seq.) (the "Act") governs a municipality's authority to create and maintain a housing commission. Section 125.653(a) of the Act provides that a township may create a commission by ordinance. Once established, a housing commission is authorized to purchase, acquire, maintain, operate, improve, extend or repair housing facilities and eliminate housing conditions detrimental to the public peace, health, safety, morals or welfare.

Fifteen day Referendum Period:

Once adopted, the ordinance must be published in the newspaper. Publication of the ordinance commences a fifteen day "right of referendum" period in which township voters will have fifteen days to circulate a petition signed by qualified electors equal to at least 3% of the number of voters registered for the township's last regular election requesting that the question of the establishment of the commission be placed on the ballot for consideration by the voters. The petitions must be filed with the township clerk before the ordinance becomes effective. MCL 125.653(a). If a petition is not filed or insufficient petitions are filed, the ordinance becomes effective after the fifteen day right of referendum period expires.

If a sufficient referendum petition is filed, the township clerk must call a special election to be held on a regular election date in accordance with Michigan Election Law. If a majority of voters voting on the question rejects the ordinance, the ordinance does not take effect and the township cannot enact another housing commission ordinance for one year. *See* MCL 163.653(b).

Initial Funding:

MCL 125.656(1) authorizes the township board to loan or grant funds to the commission to fund the commission. The Act also permits the township to condition that funding on the commission reimbursing the township from future bond proceeds.

Appointment of the Five Commissioners:

MCL 125.653(c) provides that the township supervisor performs the functions that the Act assigns to the chief administrative officer of a city or village and MCL 125.654, assigns the appointment of the five housing commissioners to the chief administrative officer. In other words, the township supervisor appoints the housing commissioners.

The term of office of members of the commission shall be 5 years, but members of the first commission shall be appointed for the terms of 1 year, 2 years, 3 years, 4 years, and 5 years respectively, and annually thereafter one member shall be appointed for the full term of 5 years, resulting in the staggering of terms of office for the commissioners. *See* MCL 125.654(1).

Tenant-Member Requirement:

MCL 125.654(2) requires one member of the commission to be a tenant of either a public housing project or subsidized housing. For a newly created commission that does not yet manage an occupied project, and has no tenant member, a tenant member shall be appointed for at least one of the first three vacancies after the appointment of the initial five commission members, or within the first two years after the housing commission is enacted.

To: "Clerk" <clerk@kinross.net>

Good Evening,

Over the last 9 months NEMSA has been establishing itself and we have been going through hurtles. We budgeted 3 months of delay in reimbursements from Insurances but we didn't start seeing funds till 5.5 months. So, we have been playing catch up.

NEMSA did state we would take over Lease payment but at this time we can not make payroll and pay Tax-exempt Lease Corp for Turck 7/8 in the next 30 days.

Would ask for 2 different options.

Option 1 is to use Well path funds towards KCT equipment/assests without funds towards next years payments which would put NEMSA into a better place.

Option 2 would be to assist with NEMSA making Lease payment and taking 81K off FY2027 KCT payments.

And Option 3 would be to decline request as KCT has every right to do.

Thanks for your time,

Has this project been previously submitted for consideration? Yes If so, When? 2024

Was this project funded in the past? Yes Amount: $ 11,000 When: 2024

Please give a description of the project, providing as much detail as possible. *Attach the full project budget, outline, and any other additional pages, including pictures, brochures or pamphlets* :

Sault Tribe Unit One Directors have been generous to the Kincheloe community by funding Kids Fishing Day, summer programming, field trips, and improvements to the Kinross Recreation Center that benefit Kinross youth. These funds made it possible to provide expanded recreation services for the local kids, buy sporting equipment, and help us create better spaces for youth to grow and learn in Kincheloe. In addition, because of the support of Sault Tribe, we can buy food to prepare and provide nutritious meals or snacks for the children who attend the Recreation Center each day. Kincheloe is an underserved community, and ever bit helps. One of the most anticipated events we hold here at the Kinross Recreation Center is the Santa Visit event. With pictures with Santa, cookies and coco, a Christmas themed craft, and gifts for kids, this event is a community favorite. We need the Sault Ste. Marie Tribe of Chippewa Indians help to fund the gift portion of this event, so that impoverished youth who may not get gifts this holiday season can feel seen and valued. We here at the Kinross Recreation Center are passionate about providing the community, and especially local youth, valuable and diverse recreation opportunities, and we need our communities help to accomplish this.

Please describe how the existence of a casino has impacted the project or service of which this application represents.

Kincheloe lies between two Kewadin Casinos, one in Sault Ste. Marie just 15 miles North, and the other in Hessel just 16 miles South. While our programs at Kinross Recreation Center change, the effect of local casinos does not. While local casinos can bring new prospective customers, the area has been adversely affected by the local casinos in a multitude of ways. The average family here in Kinross Charter Township hovers at or around the poverty level and many people have been tempted by the "hope" of "hitting" a payoff and have thereby found themselves even deeper in financial trouble. The children of these families suffer the consequences of the gambling addiction via many avenues. What little money that may have been allocated for family recreation must be redirected toward paying the bills or toward more gambling to "get out of the hole". Families are forced to take in more relatives who have also found themselves gambling more often than they can afford to. In times of trouble children can, and do, utilize the Kinross Recreation Center as a safe place to go. The activities provided by the center allow children to interact with mentors and other children while providing a wholesome atmosphere. In addition to the activities and programs available, many of the children at the Rec Center are provided a free snack or a meal every weekday.

Please give a description of how 2% funding will assist in alleviating the impact generated by the local casino.

With the lack of resources in families here in Kinross Charter Township caused by irresponsible gambling, kids in Kincheloe are going without. Without the equipment and space to learn through play, without dinner, without a safe space to be. Kinross Families may go without the funds to purchase gifts. The Kinross Recreation Center can and does help alleviate these problems, but with the help of Sault Ste. Marie Tribe of Chippewa Indians we can serve in a much greater capacity. Kincheloe youth look forward to the Santa Visit every year. Because of the generous support of Sault Tribe as well as other local groups, we can provide this event at no cost, and provide gifts for kids with no barriers. With 2 Percent funding we will be able to continue to provide more engaging activities like beach volleyball, more nutritious food as we do at PowerHouse Kid's Club, offer a more holistic safe space for children to gather, and provide gifts for children who may not get any this holiday season. We have the opportunity to keep kids engaged in constructive activities, instead of destructive outlets, but need help from community partners like Sault Tribe.

Explain the plans for this project's sustainability if funded :

Integral to the sustainability of these programs is the willingness of local mentors, philanthropic organizations, and Kinross Charter Township to continue to utilize and fund the Kinross Recreation Center. Each year our Township Board continues to come through in time of need to ensure area youth have a safe and fun place to spend their time. We are also currently funded with 2 mills in Kinross Charter Township. Kinross Charter Township remains committed to providing positive alternatives to the youth in our area, and we hope the Sault Ste. Marie Tribe of Chippewa Indians can continue to participate this year.

- **Projects are awarded funding based on a number of factors; the availability of funds at the end of each 2% cycle, the project merit, and the potential benefit to communities. There may be other factors considered as well; i.e. project sustainability.**

Please be prepared for further inquiries by having a complete copy of your project application readily available. Applications must be received no later than March 31st for the Spring Distribution Cycle and September 30th for the Fall Distribution Cycle.
